FIREAWAY

BRAND STYLE GUIDE

Welcome to the Fireaway Brand Style Guide! This is where we bring our colors, typography, and interface elements together into a single, cohesive system. Because our platform is designed for emergency situations, every detail here focuses on making things clean and easy to navigate for responders and community members alike. This guide ensures that no matter who builds a piece of the app, Fireaway always feels familiar, trusted, and reliable.

COLOUR PALETTE

IGNITE #E84500 Primary - buttons, links, active states	**TORCH** #FFAA00 Accent - warnings, pending states	**CONTAINED** #1D9E75 Accent - success, contained states	**BASE** #080B12 Background - page canvas
SIDEBAR #0C0F1A Background - sidebar & nav	**CARD** #101420 Background - cards & panels	**TEXT** #EDEAE5 Text - headings & body	**MUTED** #A0ACC0 Text - secondary & labels

CONTRAST RATIOS - WCAG AA		
#EDEAE5 on #080B12	16.4:1	Pass
#A0ACC0 on #080B12	8.58:1	Pass
#E84500 on #080B12	6:1	Pass
#FFAA00 on #101420	9.62:1	Pass
#1D9E75 on #101420	5.42:1	Pass
#FFFFFF on #E84500	3.97:1	Large only

TYPOGRAPHY

FIREFIGHTER DASHBOARD

FAMILY	TOKEN	WEIGHTS	USAGE
Barlow Condensed	--font-display	700 : 800	Page titles, section headings, buttons

Tshwane District - Real-time Monitoring

FAMILY	TOKEN	WEIGHTS	USAGE
Exo 2	--font-body	400 : 500 : 600	Body text, labels, form fields, descriptions

18 km/h - Wind NW - 38°C - 1.2 km away

FAMILY	TOKEN	WEIGHTS	USAGE
Fira Code	--font-mono	400 · 500	Sensor data, distances, timestamps, tags

TYPE SCALE

PAGE TITLE	52px / 800	REPORT A FIRE
SECTION HEAD	32px / 700	OPERATIONAL PARAMETERS
CARD TITLE	22px / 600	Report details
BODY	18px / 400	Click the map to drop a pin
LABEL	14px / 500	Location Description
DATA	14px / 400	1.2 km 8 min ago

LOGO & ICONOGRAPHY

FIREAWAY

AI-POWERED FIRE SPREAD PREDICTION AND CONTAINMENT SYSTEM

logo-large.png	logo-small.png
Sidebar expanded · min-width 120px	Sidebar collapsed · 40×48px

PLACEMENT & SIZING RULES
Always place on dark backgrounds - carbon-side (#0C0F1A) or darker
Show icon-only when sidebar is collapsed (92px wide)
Show wordmark + icon when sidebar is expanded (256px wide)
Never rotate, stretch, or recolour the logo
Minimum clear space: equal to the height of the flame icon on all sides

ICON LIBRARY - LUCIDE REACT

All icons use the Lucide React library at 24×24 px.

ACCESSIBILITY

In emergency response, clarity is a matter of safety. FireAway is built to be accessible to everyone, ensuring that whether a user is a responder or a community member in a crisis, our interface remains intuitive and readable.

CONTRAST

4.5:1 Minimum

All UI elements exceed minimum WCAG AA color contrast ratios for readability.

NAVIGABILITY

Keyboard First

Full support for focus management and skip-links for screen reader users.

COMPATIBILITY

WAI-ARIA 1.2

Semantic HTML5 structure ensuring compatibility with modern assistive tech.

DESIGN PRINCIPLES

These principles serve as the operational foundation for Fireaway. By prioritizing high-performance reliability and clarity, we ensure that every interface decision empowers responders to make life-saving decisions with speed, accuracy, and absolute confidence.

CORE PRINCIPLE

Consistency

The application of unified interaction patterns, component libraries, and standardized terminology across all interfaces to minimize cognitive load and maximize efficiency.

CORE PRINCIPLE

Simplicity

The prioritization of removal of non-essential elements, ensuring that every component directly supports tactical decision-making.

CORE PRINCIPLE

Responsiveness

The capability of the interface to dynamically adapt its layout and functionality across varying display resolutions.
